

The Latest News on SIMNSA Health Plan

Thank you to all our healthcare workers.

- We are happy to announce that SIMNSA Clinics has extended clinic operating hours. *(Telehealth will continue to be an option)*
Tijuana 7am-8pm Mexicali 8am-10pm
- SIMNSA's COVID triage utilization has continued to decrease. Since April 2020, over 35,000 patient visits were recorded. Please continue to practice health and safety protocols!
- The government of Mexico is currently vaccinating their 65+ population with a heavy emphasis on outreach to the low income communities. We are hopeful that the expansion in eligibility will occur quickly, but vaccine supply is controlled by Mexico's government so private providers including cross border HMO's are still awaiting vaccines. Please note all SIMNSA members that are eligible and able to obtain vaccines both in and out of network will be covered 100% by SIMNSA.

The state of California is allocating COVID-19 vaccines as they become available to ensure equitable distribution. Vaccinations again are prioritized according to risk and age.

NOW VACCINATING

Phases 1A-1C are currently eligible. In addition:

Beginning April 1st, General Population of 50 years of age and older.

Beginning April 15, General Population of 16 years of age and older

(*Documentation is not required, however if our SIMNSA members prefers to present a letter as proof, it may be provided upon request.)

SIMNSA encourages our eligible members to get the COVID-19 vaccine wherever there's availability in either Counties of San Diego and Imperial Valley. Vaccines are available at no cost. Due to limited supply, not everyone will be able to make an appointment right away. Appointments will continue to be added as supply increases.

Check your eligibility on California's My Turn site!
