

UnitedConcordia.com It's simply better

Soon it'll be easier to find the tools and information you need to manage your dental insurance. We've redesigned UnitedConcordia.com based on your feedback, and our relaunched site goes live on Monday, June 14th.

The site has a fresh new look, a simpler log-in experience and more intuitive navigation. Plus, it's mobile-friendly, so you can work on any device.

- Logging into your applications has a simpler look within the website
- Tools in the portal experience stay the same and can be accessed via the new one-click log-in
- Once logged in, you have access to your account, Group Administration dashboard, plus more
- Watch this [short video](#) to see what you can expect

Please share this information with other internal team members at your organization or other vendor partners and affiliates who:

- Utilize United Concordia's Group Administration dashboard
- Manage or view member eligibility
- Access our e-bill application to manage and pay ASO administrative fees and/or claims payments

We want to ensure you see the new and exciting features of the United Concordia website as soon as possible and if there are any questions, please contact your United Concordia Dental Service Representative and they work with our internal team to address them as quickly as possible.

We hope you like what you see.
